### MANY INTERESTING INCIDENTS

New Stocks Are Rapidly Coming to Front-Coal and Oil Issues Strong, While Automobile Shares Make Fresh Gains.

### BY BROADAN WALL.

NEW YORK, January 15.—To-day's stock market fairly bristled with interesting incidents. The volume of business was the was well distributed

Commission business is small, and floor traders are doing very little. This is important, for the activity of the dealer on margins and the jumping about of the floor operator are not elements of strength. New stocks are coming to the front. Coal issues were strong to also under the lead of Reading, which crossed 10. This stock still carries great possibilities in the working out of the season to the mining companies from the railroads. A majority of the stock is held by one of the country's strongest banking combinations, and valuable rights no doubt will be distributed when plans to segregate are matured.

Oll stocks were strong California Petroleum issues gained more than 2 points each. Attention was recently directed to those shares, in this column. Mexican Petroleum was active, with a substantial advance. It is confidently expected in influential quarters that this stock will be put back on a dividend basis this spring.

Automobile issues made tresh gains. Maxwell Motors first preferred rose 3 points. This stock may receive about 14 per cent back dividends from last year's earnings. General Motors fose 2 points, and Studebaker made a new high, selling at 0.

Steel stocks were beauty. There was an early spuri in Bethlehem Steel that carried the price to 5%, but this was followed by a drop to 5%. No dividend is now expected. Steel common moved within narrow fractions around 51%. The report to be issued next week will probably be the worst ever made public by the corporation.

NEW YORK, January 15. Stock moved forward again to-day under lead of the various special issues including fertilizer and the coppers and half a score of miscellaneous securities, such as Lorillard To-bacco, National Biscutt Distiliers and Pullman, Ratironal stocks and the active list in general were neglected until the later dealings, although Canadian Pacific was very strong and active throughout.

In the final hour many railway shares joined in the rise to a moderate degree until all-around advances of 1 to 3 points were the rule. Gould stocks were prominent, Missourt Pacific bettered its position of last week. There was an unusually brisk demand for the issues of several Southern reads, Atlantic Coast Line and Louisville and Nashville going well above minimum prices. A sale of 100e shares of Scaboard at 35, its established price, with subsequent dealings at an advance, attracted attention.

## Will You Take the Chance

Of leaving your estate to be administered by some relative or other individual?

Would you to-day deliver all your money to him and trust his judgment and discretion in dis-posing of your prop-erty—of managing your property?

Our trusts are administered in accordance with law, and our affairs directed by a board of conservative, experienced men of business.

Our charges the same allowed individual executors.

We execute the will free of any expense to you. One Million Dollars
